# ABOUT **JOYCE KRANE**

Based in the Pilbara Region of Western Australia Joyce Krane has over the last forty years become the regional heavy lifting and logistics specialist of choice. The family business was first established in Karratha in 1974 by Mick Joyce and is now managed by his two sons James (General Manager) and Sean (Business Manager).

Headquarters is in Karratha, with a second Pilbara operation west along the coast in Onslow. A Perth metro operation is now based in Kewdale and there is now a Sydney based Heavy Lift Division which provides crane and logistical services to the eastern states construction, infrastructure and renewable energy sectors.

Joyce Krane experience extends across a wide variety of industries that includes Oil & Gas, Mining, Maritime, Construction (Industrial & Residential) and more recently Renewable Energy (Windfarms). Major clients include Chevron, Woodside, Rio Tinto, BHP, Bechtel, CPB Contractors, Georgiou Group and Technip.

Over the years, the Joyce Krane Technical team has successfully planned and completed many specialised and challenging heavy lifts on many construction and infrastructure projects across Australia.

Joyce Krane continues to provide quality technical and engineering support services to all its clients. These services include high quality lift studies that can be easily read by all lift personnel whilst also ensuring lift projects can be completed incident free, on time and within budget.

All cranes are well maintained and operated by experienced nationally accredited and certified personnel. Joyce Krane also has a fleet of transport and large selection of specialised lifting equipment.

# JOYCE KRANE VALUES

At Joyce Krane our Vision is simple - **To be the best crane and logistics company to work with.**

Complementing this vision is our values based culture that centres around our six primary pillars.

Our business has been built on these foundations and will continue to evolve to meet our client's ever changing needs. Our values comprise:

**Safety** · Our unwavering commitment to safe work practices builds trust and confidence with our customers, employees and all those associated with our operations.

**Technology** · Having superior technology in our asset base gives us the ability to perform quality work, making it an integral part of our competitive advantage.

**Authenticity** · We believe being authentic throughout all aspects of our operation is the foundation to enduring relationships.

**Integrity** · Transparency and honesty is at the heart of everything we do. This ensures a relationship of trust with all our employees and customers.

**Reliability** · We do what we say we will do and we do it well. This is what lies at the core of our business and what continuously strengthens our brand and reputation.

**Sustainability** · We are committed to developing and implementing habits that keep us at the forefront of social, economic and environmental ethics.

The application of these values across all aspects of our service offering, ensures that from 15 to 750 tons, whatever your requirement, our extensive lifting capabilities and highly qualified team make us the right people for the job every time.

## WHY **JOYCE** KRANE?

Joyce Krane is a 100% owned Australian company who over the last forty years has gained an outstanding reputation in the West Australian Crane industry for consistently providing safe quality lifting services to all its clients.

Joyce Krane embraces technology that improves crane or equipment performance, operator efficiency and reduces any risk.

Our team of operators, riggers and support staff offer a wealth of operational and technical knowledge. Joyce Krane continues to safely overcome the operational daily challenges presented by an ever-changing economy and customer demands.

All Joyce Krane equipment is regularly inspected and maintained, all crane operators are internally trained, versatile, and regularly assessed.

## WESTERN AUSTRALIA OCEAN REEF ROAD & WANNEROO ROAD INTERSECTION BRIDGE

### Liebherr LTM 1750-9.1

- TY configuration
- 49.1 metre boom length
- 154 tonne superstructure ballast
- 12 x 12 outrigger footprint

# INDUSTRY EXPERIENCE

## OIL & GAS

We are a leading supplier to the oil & gas industry, and have been involved in planned shutdown maintenance works undertaken by major operators including Woodside, BHP, Apache and Chevron.

## MINING

Joyce Krane has provided a diverse range of lifting solutions on major mining projects for the likes of Rio Tinto, BHP & Citic Pacific Mining. In all instances, the client requirements for safety, cost and time effectiveness were determined and adhered to throughout the projects duration.

## CONSTRUCTION

Our reputation for the provision of tailored solutions has seen us proudly partner with some of the construction industry's leading owners and contractors including Monadelphous, Laing O'Rourke, Transfield, CB&I, United Group, John Holland, Kiewit, Clough, Bechtel and Technip.

## RENEWABLE ENERGY

Joyce Krane has recently used its Heavy Lift experience to be part of the Windfarm construction and maintenance industry. Now operating in the Eastern States of Australia, Joyce Krane has a very experienced Heavy Lift team who manage the daily operational needs of the cranes in often challenging windfarm environments.

## MARITIME

Our extensive experience in port operations encompasses craneage support for offshore rigs, general sea freight cargo and facility maintenance and construction. Our valued clients include Mermaid Marine, Qube, Toll and Patrick.

## RESIDENTIAL

From residential pool installations to the movement of furniture consignments, no job is too small for Joyce Krane.

## NEW SOUTH WALES CULLERIN RANGE WINDFARM

### Liebherr LTM 1750-9.1

- TYV2EN (28 metre luffing fly) configuration
- 49.1 metre boom length
- 124 tonne superstructure ballast
- 12 x 12 metre outrigger footprint
- 25 metre radius
- 69.7 tonne lifting capacity
- 42 tonne wind turbine generator rotor

## **WESTERN AUSTRALIA SOLOMON RAIL LOAD BIN INSTALLATION**

### **Liebherr LG 1750**

- SPSL configuration
- 70 metre boom length
- 170 tonne superstructure ballast
- 325 tonne tray ballast
- 12 x 12 outriggers footprint
- 24 metre radius
- 310 tonne lifting capacity
- 240 tonne train load out bin

# HEALTH & SAFETY

The challenging environments in which we work every day underpins our primary objective of establishing and maintaining the highest levels of health and safety best practice to safeguard our most important asset - our people. Having achieved ISO 45001 - Occupational Health and Safety Management we continue to strive to provide the best service possible, nothing comes before the safety of our employees, clients, and the public. As such, we are committed to providing a zero-harm work environment for all those who meet us.

Helping us achieve our zero-harm target is our Health & Safety policies that are the result of broad consultation across the business. Fundamentals of our policies include:

- Integrating health and safety into all work tasks.
- Instilling the need for all staff to identify, assess and eliminate any workplace hazard or risks.
- Empowering staff to recognise and promptly report any elements of a project that contravene our health and safety policies.
- Believing that any risk is avoidable if the right steps are taken.
- Continually evolving and improving policies based on individual project requirements.
- Building trust with our customers through safe work methods.

# JOYCE KRANE SERVICES

## **General Taxi Crane Hire**

Our taxi crane hire fleet offers lifting capacities from

15 to 350 ton with full mobility to suit all your requirements, wherever they may be. We can also supply a wide range of lifting attachments to address any specialised or challenging requirements that may arise.

## **Heavy Lift Cranes**

The Joyce Krane specialised heavy lift division consists of four machines: 1 x LTM 1400-7.1 (400 ton lifting capacity) 2 x LTM 1750-9.1 (750 ton lifting capacity) and 1 x LG 1750 (750 ton lifting capacity). With a very experienced heavy lift team Joyce Krane is a popular choice for those clients that require critical machine assembly times in challenging environments plus safe crane operations.

## **Dry Hire Crane Services**

The majority of our dry hire fleet consists of Franna

Pick & Carry cranes and Tadano Rough Terrain cranes. Both brands are renowned for their reliability under harsh Australian conditions, making them perfectly suited to isolated or remote site applications.

## **Transport Services**

Joyce Krane transport capabilities ensure the team can manage your logistical requirements by providing turnkey, full relocation services with a fleet of flat top, drop deck and extendable trailers, floats and up to eleven line platform capability.

## **Crane Operator Hire**

Crane operation is a delicate art. It takes the right blend of experience, intuition and problem solving expertise; traits that each of our fully qualified crane operators possess. You can trust your Joyce Krane operator to successfully navigate all environmental, cost and technological variables to deliver seamlessly from start to finish.
